

Maintenance medications are commonly prescribed and taken continuously to manage chronic conditions, such as high blood pressure, asthma, diabetes and high cholesterol. Adhere 90 is a program that requires members to receive a 90-day supply of certain maintenance medications after their first two fills of a prescription. Receiving a 90-day supply of medication helps increase adherence to medication regimens and is convenient for members.

90-day supplies of medications can be filled at a 90-day retail pharmacy or through mail order. The Adhere 90 program only applies to the list below; other medications may be filled at any network pharmacy.

ASTHMA AND COPD

PLEASE NOTE: This drug list is subject to periodic updates and may not be all inclusive. Inclusion of drugs on this Adhere 90 list does not indicate formulary coverage. Drugs affected include both brand and generic where applicable and includes all dosage formulations unless otherwise specifically notated. If a new drug is approved and falls into one of the targeted Adhere 90 categories, the new drug may automatically be added to this list. Quantity limits may also apply.
